

Environmental Policy

Stellaris Marine Services WLL is an independent marine and engineering consultancy and survey organisation, providing high quality services to the shipping and offshore energy industries.

STELLARIS MARINE SERVICES WLL recognises that its activities have an impact on the environment in terms of the use of raw materials, emissions to air and water, travel and waste generation, and seeks to minimise this as far as is reasonably practicable.

Stellaris Marine is committed to:

- Compliance with all environmental legislation, regulations and codes of practice relevant to the industry sector in which it operates.
- Continual improvement in environmental performance.
- Preventing pollution.

It is the policy of Stellaris Marine, in each country in which it operates, to:

- Minimise energy, water and paper usage through design, infrastructure and the behavior of its staff;
- Reduce unnecessary travel and encourage the use of alternative means of communication where practicable;
- Optimise the recycling of waste through providing adequate facilities, the behaviour of its staff and to limit the use of hazardous materials;
- Incorporate environmental considerations into procurement decisions (especially in relation to office premises and their refurbishment, and raise awareness of and influence Stellaris Marine's supply chain to facilitate a reduction in their environmental impact).

The Board will review this policy on an annual basis, taking account of any changes within legislation and our organisation and other factors.

It will communicate this policy to all Stellaris Marine employees and ensure that they are given appropriate training to raise awareness of environment issues.

It will make this policy available when requested to interested parties including members of the public.

Jaimie Howell Jones
